

No Sew Sock Bunny

Materials:

One tall sock

Rice

Rubber bands or string

Scissors

Marker

Hot glue gun (can use regular glue)

Any material for decorating your bunny (pom pom, ribbon, etc)

Directions:

1. Fill sock with rice. Make this easier by putting the sock in a cup and stretching the opening around the cup. Pour rice in until about half of the sock is filled.

2. Tie off the sock just above where the rice is filled to with either string or your rubber band

3. Next tie string or the rubber band about 2/3 up from where the rice is filled to form the body and head.

4. Cut the ears by cutting down the middle of the end of the sock and then cutting an ear shape. You can make the ears long or short

5. Decorate your bunny! Draw on the face, add accessories and you are done.
