

Toilet Paper Roll Butterfly

Materials:

Paper or cardboard

Toilet paper roll

Paint

Pipe cleaners

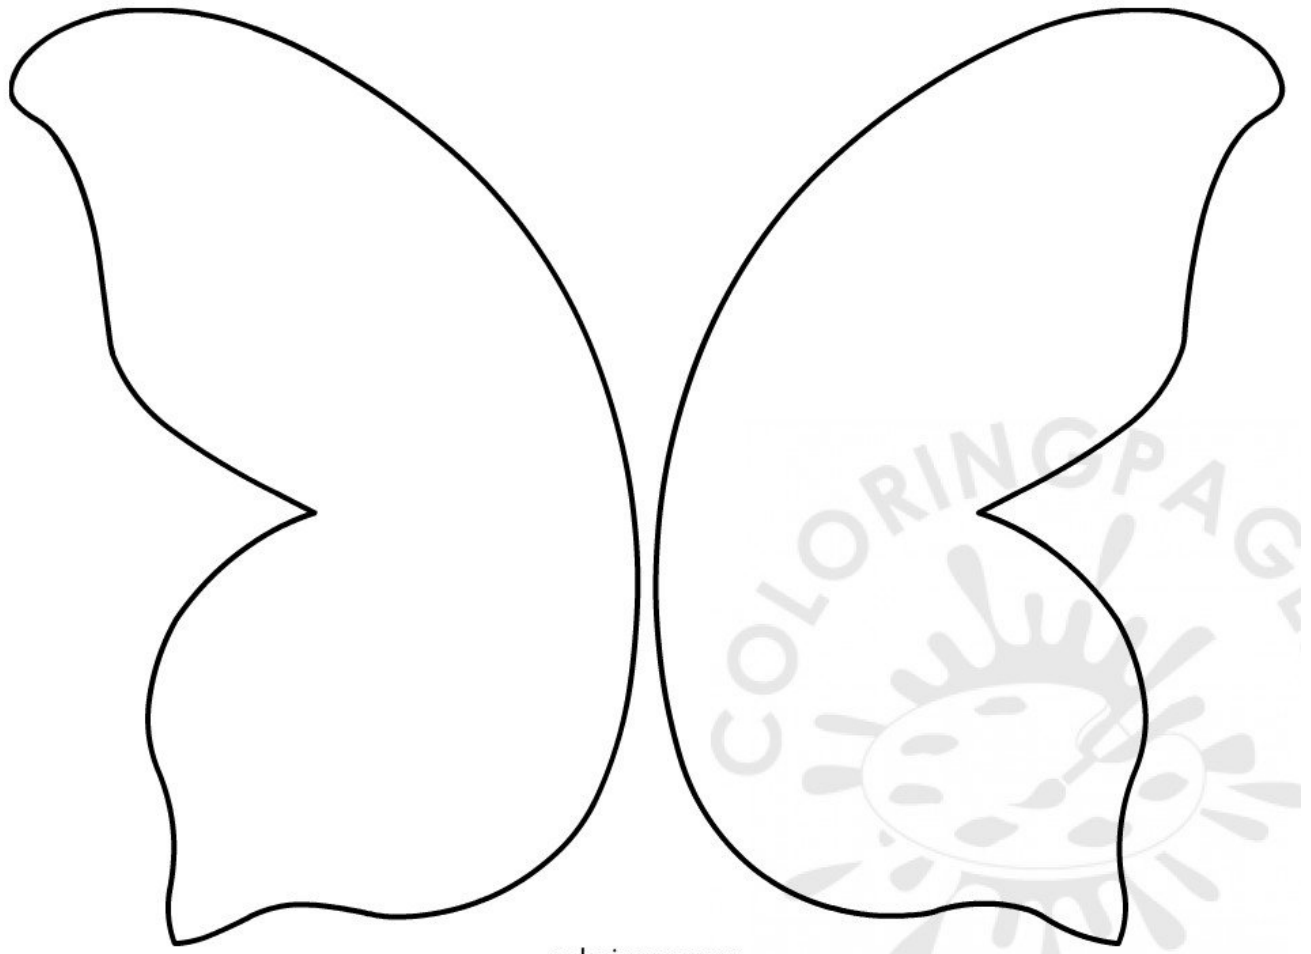

Things to decorate your butterfly such as:

- Buttons
- Pom poms
- Googly eyes
- Stickers
- Glitter

Directions:

First paint your toilet paper rolls whatever color you want your butterfly's body to be

Next cut out two wing shapes, here are some templates to make it easier:

The easiest way to make the wings is to fold your paper in half, trace one wing, and then cut it out
If your paper is white: paint your wings and let dry

Glue on your decorations to your wings. You can add buttons, glitter, pom poms, or draw fun designs

You can make the butterfly's antennae many ways: you can bend a pipe cleaner into a v shape, and then twist the tops to make little circles, you can cut out paper into antennae shapes, you can paint popsicle sticks and use that, etc. glue or tape your antennae to the inside of your toilet paper roll.

Glue on googly eyes, or draw on eyes with a sharpie and draw your butterfly's mouth

Lastly glue the wings to the back of your butterfly and you are done!
